

Beyond Lab

On the horizon:
Future trends & emerging issues

SDGs ++

SDGs

MDGs

Shifting Development Paradigms

New and systemic lenses to sustainability

**Regenerative
sustainability**

**Going
'beyond' &
redesigning
systems**

**Future
generations**

**Emotions &
affective
sciences**

1 Regenerative development

- Upgrading the sustainability ‘Operating System’
- Moving from sustaining to regenerating
- Focusing on long-term sustainability

2

Future generations

- Thinking and acting on behalf of future generations
- Integrating perspectives of all generations in policies & actions
- Mainstreaming of intergenerational equity

3

Going beyond & redesigning systems

- Rethinking economic systems
- Going beyond GDP
- Values-based financing

4

Emotions and sustainability

- Role of emotions and long-term sustainability
- Constructive Hope
- Awareness and activism

Thank you
